ROLAND MARTIN

“Fishing with Roland Martin”

For the past three decades, legendary angler Roland Martin has given viewers the scoop on how to outsmart a variety of gamefish. But after so many years of sharing his boat with millions of armchair anglers, you’d think his bag of tricks is about empty. **NO WAY!** Martin continues to pull in the big ones with **FISHING with ROLAND MARTIN**, a half hour series on NBC sports.

Martin’s incomparable level of enthusiasm is a big part of his personality. He has the vitality of a child when it comes to fishing that is refreshing to viewers. Known mostly for his bass fishing prowess, he’s adept at catching all species of gamefish - an attribute that adds to his show.

Bass Fishing is the common thread that has woven throughout Martin’s fishing career. His lofty status as a legendary angler was gained through his dominance in the sport of bass tournament competition. In the infant stages of the 30-year-old sport, Martin commandeered the winner’s circle the way the New York Yankees reigned over the American League, and the Green Bay Packers once owned the National Football League.

Martin’s enthusiasm is legendary as are his 19 wins on the BASSMASTER tournament Trail and 9 B.A.S.S. Angler of the Year titles - both records. He still competes in competition tournaments like the BASS OPEN Tour, just to see what’s new in the fishing world. Though tournaments take a lot of his time, Martin plans to continue entertainment and education as part of the mainstays of his program, however he hopes to have a chance to focus on other issues confronting sportsmen. Conservation and the environment are becoming just as important to fishing as are the lures in our tackle boxes.

His definition: **"A pattern is the exact set of water conditions such as depth, cover, structure, temperature, clarity, current, etc. which attracts fish to that specific spot and to other similar spots all over the same body of water."**

He discovered the technique during seven years of guiding on Lake Santee-Cooper, S.C. in the 1960s. Roland made this technique available to millions of readers in his book **101 BASS CATCHING SECRETS** with Tim Tucker.
