

Dear Customer,

Premium Gear Since 1972

We at HT Enterprises, Inc., would like to thank you for showing an interest in our ice fishing product line. Over the years we have worked hard to design and manufacture products that you would be proud to market.

Our line of ice fishing tackle has been well received throughout the United States, Canada, and the World. Our products have weathered the "test of time" and have proven to be very popular among ice fishing enthusiasts everywhere.

Our number one goal is to continue to offer the very best ice fishing tackle in the world. We will continue to do everything possible to keep the cost of manufacturing down, so that you will always remain competitive in the marketplace. Our wholesale-buying discount program has been designed to achieve maximum volume and high profits.

If you have any questions concerning our product line or discount program terms, please give us a call at 920-533-5080. Our office hours are from 8:00 a.m. to 4:00 p.m. daily (Central Time).

Again, we'd like to thank you for your interest in our line of ice fishing tackle products. We will continue to do everything possible to serve you.

2024-25 Ordering Program

In order to provide you with quality product and on-time deliveries at competitive prices we need to be able to place orders on a timely basis with our suppliers.

- Late orders to our suppliers starts an unfortunate chain of events starting with late shipments to customers and lost sales.
- Quality diminishes quickly when suppliers must rush production to try and meet unreasonable deadlines. Without ample production time quality control is not able to catch problems that normally would be easily resolved.
- Rush orders always demand higher production costs and unusual shipping arrangements that add unnecessary costs increasing the cost of your products.

We can greatly diminish the above situations with timely ordering. We depend on you to evaluate your product needs <u>at the end of the ice fishing season.</u>

- 1) Count your inventory as you are storing the remaining stock
- 2) Record your sales quantities for each ice fishing item
- 3) Mark the items to go forward and items to drop
- 4) Subtract sales from remaining inventory quantities
- 5) Provide a 2024 forecast to your HT representative Before 4/1/2024

Please Place Opening Orders <u>Before April 1st, 2024</u>

HT Enterprises, Inc strives to fill every order no matter when the order is placed. Unfortunately, it is impossible to produce the exact amount of product needed without customer forecasts and your opening orders.

Opening orders placed after midnight, <u>April 1st, 2024</u> will reduce our ability to supply all of your product needs through the season.

Items that have minimum customer support will be evaluated after the April 1st deadline. If quantities ordered do not meet supplier minimums, HT Enterprises, Inc. will contact you and hopefully find a way to reach the minimums needed.

Note: All Orders INCLUDE a <u>3% Defective Goods Allowance in your NET Invoice Price</u>

If you would like to be credited for defectives, quoted prices will be raised 3%

POLAR TIP-UP FEATURES

- Ultra-smooth, multiple-designed Trip Shaft (see Inset "A")
- · Guaranteed not to "FREEZE-UP" in sub-zero temps
- · Frame has unique V-SHAPE for easy removal from ice (see Inset "B")
- Unique LINEGUIDE designed for easy in and out line placement, yet LINEGUIDE holds line in while fishing (see Inset "C")
- · "Ends" on frame for fast line pick-up
- The FLAG WIRE is on a slight angle so it can be placed on either side of TRIP SHAFT for light or heavier "trips" for the use of larger bait
- · Three holes in bottom of REEL for hooking your hook to keep leaders straight
- Entire unit weighs only 11 3/4 oz. for easy transport
- Polar Tip-Up made of solid, high-impact black or orange plastic material that is STRONGER THAN WOOD

INSET "B" **V-SHAPED FRAME**

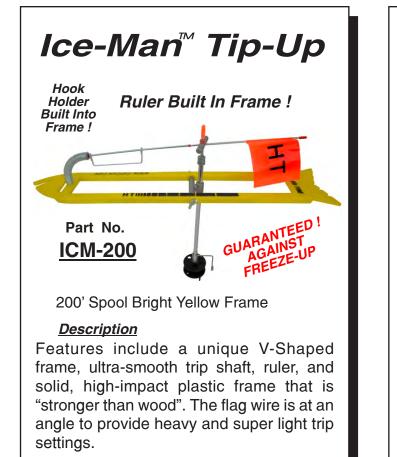

regular flag wire wrap-a-round card

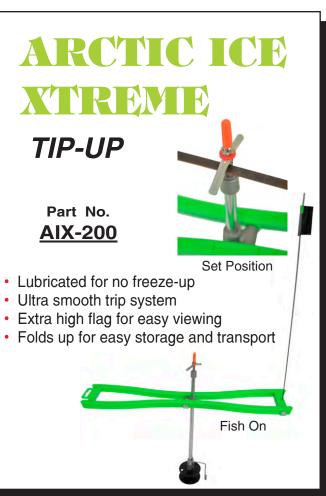

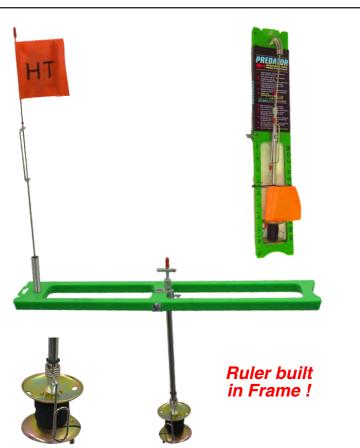

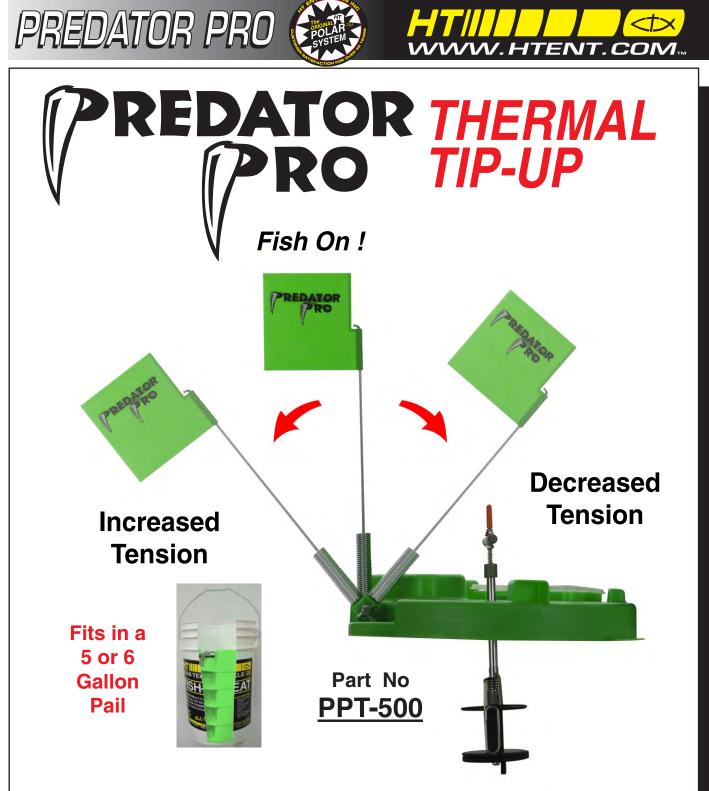

- Super durable "v-shaped" base for easy removal from ice
- Neon green color for high visibility
- Multiple trip settings : light for panfish & heavy for gamefish
- Lubricated with HT Therma-Lube ensuring smooth operation in the coldest temperatures
- Special "Flag Trip Wire" prevents trips caused by a strong wind or large bait
- 500' gold metal spool with line

- Mechanism is guaranteed against freeze up and features a multi-setting trip
- Insulated hole cover frame eliminates hole freeze-up and blocks out both blowing snow and light
- Can be stacked in a 5 or 6 gallon bucket for convenient transport or off-season storage
- Unique line guide designed for easy in and out line placement
- Large capacity, 500' spool with hook keeper; built-in three compartment tackle box

"The Polar Therm Extreme combines versatility and performance. Neither the trip mechanism or hole will freeze under extreme conditions!"

Tom Gruenwald Author & Pro Fisherman

Guaranteed Against Freeze-Up !

POLAR THERM EXTREME TIP-UP

HANDLE FOR EASILY LIFTING TIP-UP FROM HOLE FOR AN EFFECTIVE HOOKSET

200 foot Spool Capacity

Hi-Viz Orange Frame, 200' Plastic Spool Telescopic Flag Wire

Built-In Lightstick Holder For Marking Your Tip-Up At Night. (Uses UG-7 -7.5mm x 75mm)

POLAR[®] THERM EXTREME TIP-UP

The **POLAR THERM EXTREME TIP-UP** is an "underwater" Tip-up designed with many features that put it in a class by itself.

UNIQUE FEATURES of the POLAR THERM EXTREME TIP-UP

FREEZE-PROOF

The EXTREME'S patented trip mechanism is freezeproof so you'll never have to worry about below-zero temperatures affecting your success again.

CONVENIENT

The EXTREME's design allows the entire tip-up to fit in a 5 or 6 gallon pail. Actually stack over five tip-ups tangle-free in a 6 gallon pail !

TANGLE-PROOF

The EXTREME'S design promotes a tangle-free feature with the foam hook holder at the bottom of the spool.

THERMAL ACTION !

Keeps your ice hole free of ice by trapping the thermal action of the open water. This natural phenomena keeps the ice hole open in sub zero temps!

ADJUSTABLE TENSION TRIP

Set the "adjustable tension" light for panfish, medium for walleye and heavy in deep water for lake trout and northerns.

RUGGED DESIGN

The EXTREME is built rugged out of space age plastic to take punishment while it stays lightweight and warm to the touch.

BUILT-IN TACKLE BOX W/LID

The EXTREME has a built-in tackle box for easily convenient set-up at the hole location.

EASY OPERATION !

Simply pull the center mechanism into a perpendicular position, set line at your selected depth, place flag trip wire under the trip bar, and place tip-up over the hole with the spool under the water.

FIT Electronic MAGNUM POLAR Pop-Up

- Has a light/buzzer bite indicator for night fishing
 which can be turned off during the day
- · When fish is running the light and buzzer pulsate
- Batteries not included (2 AA)
- Built in hole cover with velcro door so you can see if the fish is running or not
- Neon orange handle on spool so you can tell if the spool is turning when a fish is on
- Extra large capacity spool with handle that holds 1500 feet of braided line
- Adjustable spring tension drag system
- Comes with two 3 mm x 39 mm light sticks (part no. UG-4)

"The list of features for the Polar Pop-Up is virtually endless! It's the easy operation, positive strike signal, adjustable spool tension and super smooth, freeze-proof, wind-proof, snow-proof magnetic trip features that are supreme. This unique specialty tip-up has all the qualities to help improve anyone's on-ice catch."

Tom Gruenwald Author & Pro Fisherman

Hand Tested ! Guaranteed to be Waterproof !

The Original Magnetic **Polar Pop-Up Tip-Up** with New Deluxe Lighting System

MAGNUM POLAR POP-UP HOLE COVER TIP-UP

- Extra-large 1,500' spool with handle
- Adjustable magnet tension settings
- Adjustable positive drag system
- Special reflective top for easy visibility when tube is set down in the "set position" or when it is up in the "bite position"
- New rubber line keeper ring that slides up and down on the pop up tube above the spool so you can put your hook in it to keep your leaders always straight
- Comes with Two 3 mm x 39 mm Light Sticks

Part No. PPM-1500 1500 Foot Spool Capacity

POLAR[®] POP-UP TIP-UP

The **POLAR POP-UP TIP-UP** is an "underwater" Tip-up designed with many features that put it in a class by itself.

UNIQUE FEATURES of the POLAR POP-UP TIP-UP

FREEZE-PROOF

The POP-UP's patented magnetic trip mechanism is freeze-proof so you'll never have to worry about below-zero temperatures affecting your success again.

WIND-PROOF

There is no exposed line or trip mechanism. Even a 50 mph wind can't trip the POP-UP accidentally because its sturdy 3-point suspension makes it stay put.

SNOW-PROOF

Drifting snow simply can't plug the POP-UP's trip mechanism because of its unique design.

POSITIVE SIGNAL

There's no exposed flag to confuse you from a distance and the flag shaft is a bright fluorescent orange so you get a positive signal when a fish strikes.

ADJUSTABLE TENSION

Set the "adjustable tension" light for panfish, medium for walleye and heavy in deep water for lake trout and northerns.

SPOOL WINDER

The POP-UP's specially designed spool winder lets you wind up your line easily any time you want.

WATER BRAKE

On hard strikes, the spool winder acts as a water brake to keep the spool from over-running and fouling up your line.

SPOOL LOCK

The easy-to-grip knurled spool lock is designed for adjusting tension and for locking the spool when storing.

RUGGED DESIGN

The POP-UP is built rugged out of space age plastic to take punishment while it stays lightweight and warm to the touch.

EASY OPERATION !

Simply unlock the cap, open the legs, unlock the spool and bait up ! That's all there is to it. And packing up is just as easy.

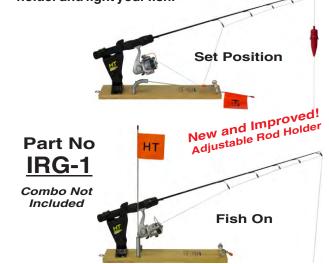

ICE RIGGER/HOOKMASTER

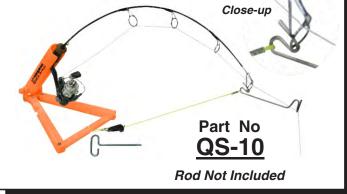

The Original ICE RIGGER

The Original Ice Rigger allows you to fish with multiple rod & reel combos at one time! The Ice Rigger acts like a traditional tip-up with a flag that signals the strike. Simply lift the rod out of the holder and fight your fish.

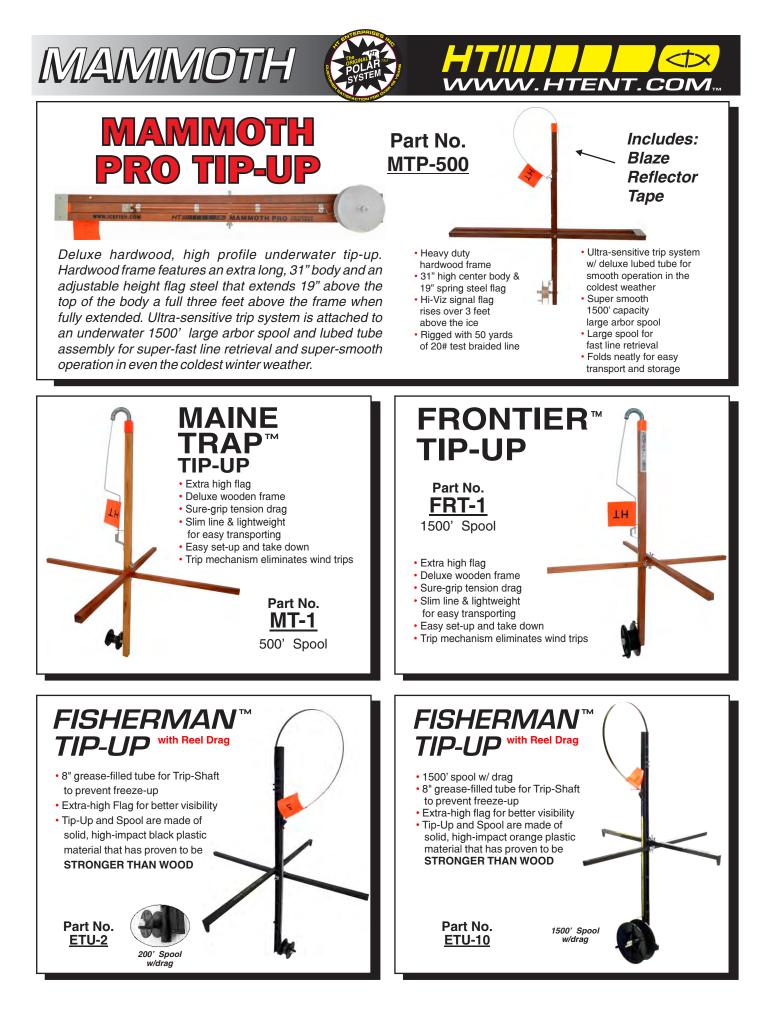

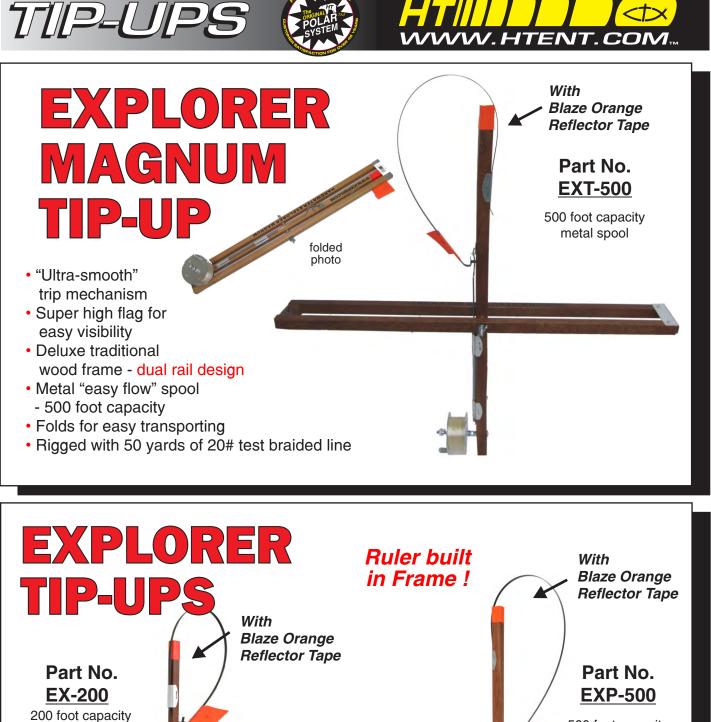

- Adjustable hook set rod holder works with most any length of rod combo
- Easily adjusts quickly by using a line/clip system with a special wire trigger that hooks into the rod tip top
- · Fully adjustable rod tube
- Light weight and durable
- Comes with an ice anchor which secures the device down if needed

500 foot capacity metal spool

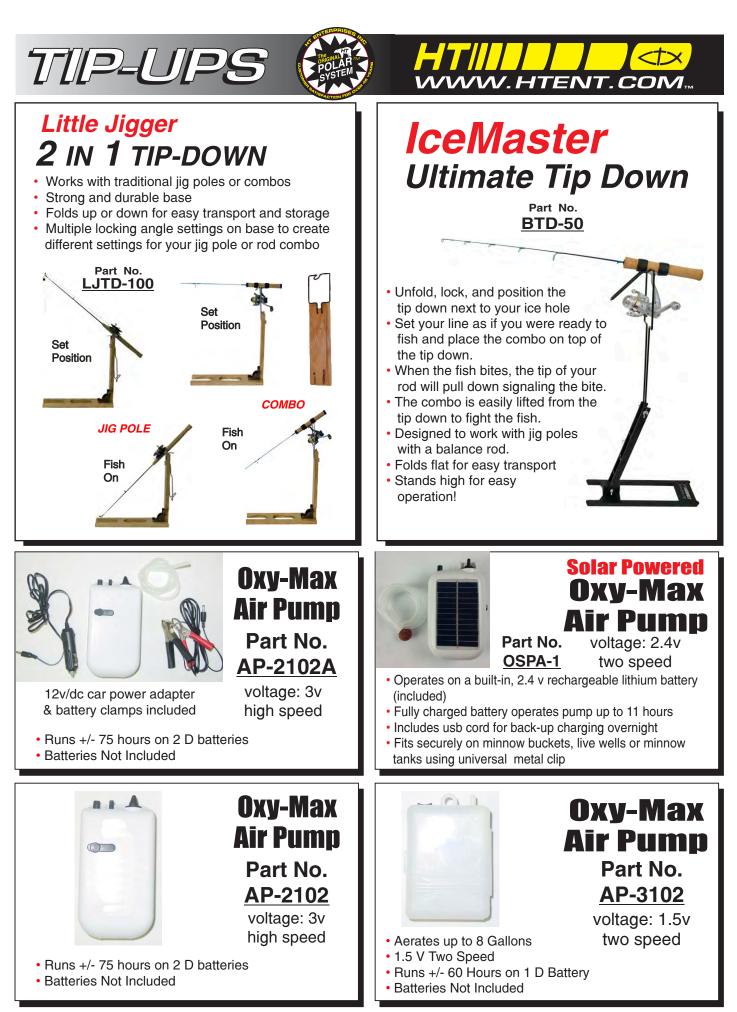

Rigged with 50 yards of 20# test braided line

"Ultra-smooth" trip mechanism
Super high flag for easy visibility

HT has once again taken ice rod advancement to an all new level! The revolutionary Fast Stix angular blank incorporates an oblique sheer beginning with a traditional round base that graduates into a horizontally flattened, rectangular design that is diametrically stronger and adds significantly greater backbone and power before tapering into a well-balanced, thinner "spring tip" section, ultimately providing a unique action featuring a supremely heightened level of sensitivity!

Studies have indicated that when gamefish strike their prey often the eye is the item they focus their attack on. **Hot Bite FISH EYE LURES** simply enhance this natural attracting feature and will increase your catch ! In fact, some research shows that **Hot Bite FISH EYE LURES** will fool actively feeding fish two to three times that of similar lures. This lure is great for summer or winter fishing.

FISH EYE JIGS

Hot Bite LUNAR LURES are proven highly effective, both summer and winter. The subtle "Lunar Glow" helps fish find your lure in conditions where they can't see well, such as dark or stained water environments or at night.

Hot Bite LUNAR LURES are sold as traditional teardrop lures with the advantage of its unique glow feature.

Hot Bite's custom designed Slim Rat Jigs feature light, precision balanced heads and an exclusive, highly durable "tight-fit" soft bodied tube tails. This combination results in an extremely small profile, slow falling bait that helps trigger even the fussiest winter fish. Works especially well when tipped with tiny maggots or grubs.

HT's Ice Mite Jigs are a thin-bodied, lightweight, slow falling horizontal jig with a long hook shaft, which helps accommodate a variety of baits and present them in a natural, horizontal position. An excellent choice when fishing shallow water pan fish!

HT's Chain Rigs might be one of ice fishing's best developments. A lightweight chain and snap allow this bait to be rigged and fished alone, but reign supreme as a dropper beneath virtually any type of jigging minnow or spoon.

Contains One Chain Rig with #12 Single Straight Shank "Blood Red" Hook and One Chain Rig with #12 Treble "Blood Red" Hook

APALS[®] ADHESIVE LIGHT STRIPS LAST UP TO 200 HOLDER

APAIS

Can be seen up to 2 miles horizontal and 3 miles from the air

Runtime: Up to 200 Hours
Modes: Fast Flashing / Slow Flashing / Steady On / Off
Heavy Duty 3M Adhesive Back
Easy-Pull Tab
Waterproof, Dustproof & Shockproof

O ALL PURPOSE ADHESIVE LIGHT STRIPS

APALS® portable light strips are a much "greener" alternative to chemical light sticks as they can be turned off and on and reused many times compared to a one time use chemical light stick. They can be used to light your tackle box, cooler, fishing rod holders or anywhere you require super bright, long lasting lighting. APALS® multi-purpose light strips can reduce volume and weight in your tackle box as they replace several lighting tools with their versatility. APALS® will provide up to 200 hours of light and weighs less than a fraction of an ounce. The highly polished aluminum surface is a great daytime signaling mirror. The bright LEDs with fast and slow flashing modes are highly effective at night for signaling a rescue team. APALS® portable light strips are easy to carry in and carry out and are an essential piece of gear in any tackle box.
