They can be used to light your tackle box, cooler, fishing rod holders or anywhere you require super bright, long lasting lighting. APALS® multi-purpose light strips can reduce volume and weight in your tackle box as they replace several lighting tools with their versatility. APALS® will provide up to 200 hours of light and weighs less than a fraction of an ounce. The highly polished aluminum surface is a great daytime signaling mirror. The bright LEDs with fast and slow flashing modes are highly effective at night for signaling a rescue team.
